

**Hi there, we're hopehouse,**  
we believe in showing God's  
love practically and medically to  
those in need that lack resources  
to fulfill their own medical needs.

Free Medical Clinic

## Let us introduce ourselves

Hope House is a free medical clinic that provides limited medical care to adults who lack health insurance and whose incomes are below 250% of the federal poverty limit.

### We envision

Hope House envisions individuals and families helped through economically and medically vulnerable periods by teams of caring volunteers offering a message of love and hope.

## We can help

- Basic medical care
- Dental exams
- Eye exams
- Lab testing
- Medicaid assistance
- X-rays
- Medical referrals
- Spiritual support

### Other ways we can help

We offer a wide variety of free generic medications and assistance in obtaining brand name drugs through manufacturers. We also offer disease management education and medication counseling through the Pharmacy Clinic, and assistance with the Healthy MI Plan Application Process.

We are partnered with Ferris State University College of Pharmacy to provide services for patients at the Ferris Pharmacy Care Clinic.

## Become a patient

We are always welcoming new patients. Call or email us to set up an appointment or visit our website for more information.
